In the atmosphere experienced here during the nummer months, the lethargy produced by the heat takes away the desire for wholesome food, and frequent perspirations reduce bodily energy, particularly those suffering from the effects of debilitating diseases. In order to keep a natural healthful activity of the system we must resort to artificial means. For this purpose Schenck's Sea Weed Tonic is very effectual. A few doses will create an appetite and give fresh vigor to the enervated body. For dyspepsia, it is invaluable. Many eminent physicians have doubted whether dyspepsia can be permanently cured by the drugs which are generally employed for that purpose. The Sea Weed Tonic in its nature is totally different from such drugs. It contains no corrosive minerals or acids; in fact it assists the regular operations of nature, and supplies her deficiencies. The tonic in its nature so much resembles the gastric juice that it is almost identical with that fluid. The gastric juice is the natural solvent which, in a healthy condition of the body causes the food to be digested; and when this juice is not excreted in sufficient quantitles, indigestion, with all its distressing symptoms follow. The Sea Weed Tonic performs the duty of

Dispatches to The Evening Star.

EXCITING NEWS FROM MISSOURI. Kansas City in Possession of the Strikers.

KANSAS CITY, Mo., July 24 .- The strike of railroad employes occurred as previously agreed upon at noon to day, and no freight trains have been allowed to leave the city. Soon after 12 o'clock a crowd of about collected at the depot and marched to all the nailroad shops in the city and compelled the workmen to cease work. They also visited Plankington & Armour's packing house, the elevators, the different buildings being erected, and all places where labor was performed and compelled a complete cessation of manual labor all over the city. There has been great excitement in the city to-night; all saloons were ordered closed.

At 7 p. m. a meeting of citizens was held and measures taken for the the protection of private property and for putting down a riot should one occur. The strikers and their friends also held a meeting, and decided to let no freight trains leave the city to-morrow. The excitement is still intense, but it is thought no damage to private or railroad property will be attempted. Council met in secret session to-night, and it is understood a large force of special policemen will be appointed early in the morning.

The Workingmen's Meeting in St. St. Louis, July 25, 2:25 a. m.—The workingmen held another meeting in Lucas market last night. The crowd was orderly Whereas, it hath pleased the Lord to remove from us, in the midst of his usefulness, our well beloved brother, P. C. R., John C. Axe.

Therefore Resolved, That we, his bethren, who have known him so long and weil, tender to his betreaved family and friends our heartfelt sympathies in their affliction and our high appreciation of his worth. It is not in the language of fulsome eulogy, but in the work of truth and abusiness that a good deal of laudation of the working classes. The straker said they had 7,000 stand of arms in their possession, at which there were cries of "Let us have them charged the blood shedding at Baltimore and Pittsburg upon the President of the United States. He sent the army into their midst to put down men struggling for their rights.

A SERIES OF RESOLUTIONS, framed by the executive committee of the workingmen's party of the United States were adopted, declaring that they will not hold themselves responsible for any acts of violence that may be committed, but will do all in their power to assist in keeping order and preventing violence. "Their motto is death to all thieves, incendiaries and mur derers." They recommend a general strike of all branches of industry for 8 hours for a day's work, and call upon legislators for the enactment of an eight-hour law. After the meeting had adjourned a procession formed. which, after marching through a number of streets, crossed the river to East St. Louis. where a number of speeches were made. It is understood they will visit all place where mechanics and laborers are employed and endeavor to prevail upon them to join

HOODLUMS. Attacks on the Chinese Quarter-Houses Wrecked and Burned Down. SAN FRANCISCO, July 21.—Throughout the vening all that portion of the city north of Market street has been perfectly quiet. But south of that thoroughfare some disturbances have occurred. About 9 o'clock a crowd of hoodlums collected and wrecked a China house on Natoma street, near 5th. They then gathered on 5th street, near the U.S. mint. A few officers were sert to disperse them, but were unable to effect anything. Reinforcements were sent out and after a severe club exercise the mob broke. Some two or three hundred of them subsequently started up Mission street and from 8th to 12th streets CLEARED OUT EVERY CHINESE HOUSE on the street, the occupants abandoning them to secure personal safety. Arriving at Ith street, they were joined by a crowd who had been depredating on Bramon street, and the combined force moved to the corner of 12th and Folsom streets, where they tore down and set fire to a Chinese match factory and laundry. Here they were again attacked and roughly handled by the police, and at last advic 3 quiet had been restored. The mob dispersed and apparently ought their homes. About 11:15 p. m. a Cainese washhouse in the extreme northwestern portion

of the city was fired and burned down, but it was apparently the act of those parties, as the police on their arrival found no trace of a crowd, or further disturgance. Ali Quiet at Midnight. At this hour, 12:50, everything is reported quiet in every section of the city, and it is thought that there will be no further trouble during the night. The outrages so far seem to have been committed by unorganized gangs of vicious noodlums. The workingmen's party of this city avow their opposition to all such proceedings, and in case of necessity profess their readiness as a body to assist the friends of order. In this they are undoubtedly to a great extent sincere, as

The full extent of the ground on which he bases his application is not reported, although it is considered possible some attempt may be made to initiate a move against the company.

PENNSYLVANIA. Soothing Effect of the Regulars at

Naw York, July 25.—A special says the regulars who arrived at Reading last evening had an exceedingly soothing effect on the whole community there, especially as a battery was planted on a hill so as to command the railroad portion of the city. The militia which had disgracefully fraternized and got drunk with the mob were sent home, many of them going away without their arms, which they had given to the mob.

Exciting Times at Scranton. SCRANTON, PA., July 26.—The excitement here is intense. All trains on the Delaware, Lackawana and Western road have been stopped. When the mail train from Binghampton for New York arrived here at 9:50 this morning, two passenger cars were de-tached by the strikers, who said nothing but the mail should be allowed to run. Superin-tendent Halstead said the mail cars would not run unless the passenger cars were also permitted, and this made the strikers very indignant. The superintendent was firm, however, and the mails were taken from the however, and the mails were taken from the car, which was promptly switched off on a siding. The strikers telegraphed at once to the state authorities that the company refused to run the mail, and that they would run it if necessary and furnish fireman and engineer. A dispatch to the same effect was sent to the Post Office authorities at Wash-

ir gion. The streets are thronged with men from the mines, railroads and iron wells. All Right at Philadelphia.

PHILADELPHIA, July 25.—All is reported quiet at West Philadelphia depot this moraing, and no trouble is anticipated. Passenger trains are moving promptly, and some freight is being sent to New York, but none west. At the Philadelphia and Reading railroad the same quietness prevails. The rails which were torn up in the vicinity of Reading have been rela d, and trains are moving this morning on schedule time.

NEW JERSEY.

Mob of Silk Strikers NEW YORK, July 25 .- The silk strikers mobbed a couple of non-striking workmen last night at Paterson, N. J., but the police dispersed the crowd.

A Call for Protection. The may ors of all the cities in New Jersey through which the Lackawanna road runs, were notified by the company to day that their property has been threatened, and call on the mayors for protection. War veterans guarded the state arsenal at Trenton last

Tracks Torn Up and Trains Delayed. New York, July 25.—The first Delaware, Lackawana and Western railroad train from he places west of Newark arrived at Hoboken at 10 a.m., just one hour late. As was predicted, the new firemen are afraid of their lives, and now refuse to do duty; consequently only a few of the trains can be rui. During the night the rioters tore up the track in the suburbs west of Newark, but the track hands repaired the damages and were not bindered in so doing.

> NEW YORK STATE. Buffaio Quiet This Morning.

New York, July 25.-A Buffalo dispatch says:-"All quiet here this morning. Tue police charged on and succeeded in breaking up all mobs last night, scattering them and making several arrests."

A New York City Regiment Sent to NEW YORK, July 25 -At 1:30 this morning ion. Shaler received a telegram from the governor ordering another regiment to re-port to Buffalo forthwith. Gen. Shaler deicd to send the 8th regiment of this city Col. Gco. D. Scott commanding, which will start by the first train. The regiment numbers about 300 men.

The Red Flag of the Commune in New

York City.
All the military here and in Brooklyn and Jersey City were on duty at the different armories last night, and continue on duty this morning. Merchants on West and South streets and other portions of the city state that the idle men around the piers and along shore have hinted at and threatened trouble within the past 48 hours. Many citizens scoat the idea of trouble here. It is believed but for the fact that several regiments are ready at an hour's notice to clear the streets, without using blank cartridges, there would have been demonstrations here. The whole police force will be on duty to night during the communist meeting in Tompkins square. Two red flags of the commune are flying in

The Locomotive Brotherhood. President Arthur, of the Locomotive Brotherbood, said yesterday at Cleveland that strike, and his advice has been not to jeo. pardize their lives nor compromise their manhood. They sympathize with the strik. ers, but not with communism.

Gen. Carr Means Business. Gen. Carr, at Albany, says he will open the blockade on the New York Central to day, blood or no blood, and while they will give notice to strikers or mob, they will no wait any excessively long time for disper sion before firing. All mails from the New York Central road, except Buffalo, arrived here this morning.

The N. Y. Ninth Regiment Stoned The 5th New York regiment was stoned by workmen while passing Scarborough, and two privates were struck but not seriously

Vanderbilt's Views

Wm. H Vanderbilt, at Saratoga last night, insisted that none of his men had struck, but hey had been coerced into leaving work by cutsiders. He also believed the worst was ver, and will hold the state responsible for any destruction to his railroad property.

The Strikers in Western New York The Elmira battalion at Hornelisville is to be sent home. Ralls have been removed rom the Erie track on the Chemung river bridge, and several cars thrown across the track there by strikers. Large numbers of tramps arrived at Salamanca, but the strik ers have nothing to do with them.

All Qu et at Albany ALBANY, July 25.—All was quiet up to 9:3 this morning. Troops are now at West Albany. No further trouble is apprehended. An Esie Train Thrown From the NEW YORK, July 25.—The Eric railway officers have received advices by telegraph

that their train No. 3 Pacific Express leaving here last night at 7 o'clock was thrown from the track about three miles west of Oswego the mob having removed a rail from the track. All the cars left the track, but fortunately no passengers were seriously injured This occurred between 4 and 5 a. m.

WORK; SGS OF THE STRIKE Stoppage of the Shoe Frade at Lynn LYNN, MASS., July 25 .- Notification has been received by all prominent shoe manufacturers in Lynn from southern and western railroad companies not to ship any mor shoes south or west until the strike is ended. Shoe shipments made yesterday got no fur-

ther than Boston and there remain. Baltimore Quiet fo-day

BALTIMORE, July 25, 11 a. m -All is quiet in this city this morning. Passenger trains over the Philadelphia, Wilmington and Bal timore; the Northern Central and Baltimore and Potomac, are moving with regularity On the Baltimore and Onio passenger train are running to Washington and the west The regular passenger train which left Camden station yesterday morning for Cincin nati arrived there this morning, only a little behind time, and the regular trains left that city for Baltimore this morning. Public atention in this city to-day is concentrated on the meeting in New York to-night, and the deepest interest felt in the result.

----The Government and the Strikers. It is authoritatively stated that any interference with or obstruction of trains or attack on private or public property, or riotous conduct, in the states of West Virginia, Maryland or Pennsylvania, will be considered as rebellion against the government of the United States, and will be so regarded by the President. The prompt arrest of all parties so offending has been ordered, and they will be punished to the full extent of the law, and are liable to be shot down by the government forces if caught in the act. Perfect quiet reigns in Washington. The government has concentrated so large a force here as to preclude the possibility of

any disturbance. Advices having been received at the War Department to the effect that an uneasy feeling prevails at Chicago, and that trouble was expected in that city, yesterday a strong force of the 9th infantry was ordered to proceed to Rock Island, Ill., and there await jurther orders. Eight additional companies of infantry have also been ordered to St. Louis to

All available troops in the Department-of the Gulf have been ordered to Louisville and Newport barracks, Kentucky, an effective companies of the 3d and 13th infantry. All available troops in the Department of the South have been ordered to Baltimore and Washington by the most expeditious routes. Suitable guards have been lett at points vacated. Each soldier before moving was supplied with two hun-dred rounds of ammunition. The force from the Department of the South comprises twelve batteries of artillery and seven companies of infantry. A troop train from Columbia, S. C., was totally wrecked by jumping the track near Union Point, Georgia: no troops injured, and they took the first train for Louisville.

for Louisville.

The situation at Harrisburg was under consideration by the government last night with reference to the prompt restoration of order at that place. Decisive action will be taken to-day. Battery B. 3d artillery, has reached Fort Columbus, New York harbor, from Fort Niagara, subject to orders for any point needed. A despatch from St. Louis states that the

rioters do not seem disposed to violence. The internationals and desperate characters The internationals and desperate characters are attempting to organize into a threatening attitude. Major General Pope, commanding the department of Missouri, and extrusted with the management of affairs looking to the safety of the public property at St. Louis, is closely observing the situation, and will go to that city whenever he deems his presence necessary. Two hundred and firty men in the Soldiers Home at Milwaukee have offered their services to the city in case of trouble. The adjutant general is advised of the threatening condition of affairs along the

roads centering at Omaha. A telegram from Chicago says: "Threats are being made looking to the closing by strikers of roads leading from Cnicago to Omaha. It is announced that the Chicago and Rock Island road has been closed except for express matter and mails." Hancock telegraphs from Reading,

The War department has been informed of the arrival of the 23d infantry at St. Louis barracks, from Fort Leavenworth, without any molestation.

Washington's Railroad Connections. ALL QUIET ON THE B. AND O. ROAD. The trains on the Washington and Metropolitan branches of the Baltimore and Onio road were running yesterday with accustomed regularity on schedule time. It is stated that about twenty tramps arrived by the western express train last evening over the Ealtimore and Ohio road from Martinsburg, and that on their arrival here they were inclined to be disorderly, but the police soon convinced them that Washington was a bad place to show lawlessness in, and they left for Baltimore by the first train out. A few idlers lingered about the depots last evening, but no di-position to create disorder

The Baltimore and Potomac road has not been affected by the strike, and as far as is known the men have taken no part whatever in it. It is true that some of the engincers who had heard of threats were somewhat dubious about running an engine attached to a train with troops, but had there been any necessity for sending out such a train that there would have been no difficulty in finding an engineer and fireman. The train men and other employes took no part in the application for the restoration of o per cent, to their compensation, but doubtless had there been a favorable response to the Northern Central committee they would have received t' e benefits of it, for they are in the same division (Baltimore) as that road, and when the change is made it will probably include the whole division.

TRIKE AVERTED ON THE NORTHERN CENTRAL AND B & P. ROADS. Last evening there was but little commoion about the Baltimore and Potomac railroad depot in this city, and all trains were arriving and departing on schedule time. It had been understood that Superintendent Wilkins, in Baltimore, would give a committee of freight men of the Northern Cenral (including the B. and P. road) an answer at 4 o'clock p. m. to their request to restore the ten per cent., and if such answer was not favorable the report was that the men would strike, and there were a few per-sons around antic pat 1 it. Such action was not contemplated at this end of the line at least. When the committee presented the communication 'o Col. Wilkins on Monday, they also asked some relief in the matter of d uble trains. Col. Wilkius replied that he had authority as to the trains, and he would see that there should be no complaint in future. The question of compensation he had no control over, but he would refer the obtain an early response.

matter to Col. Scott, and would endeavor to Yesterday Mr. Wilkins having heard from ol. Scott, and preferring to talk to the men in person, visited the Mount Vernon shops in Baltimore. A meeting of the workmen was at once held, which he addressed. He said that their application had been forwarded to Col. Scott at Philadeiphia, and his response was that it would be laid before the board of directors; that their attention was at present occupied in such important matters it could not receive immediate attention. but it would be considered. Colonel Scot thanked the employes for their fidelity to the interests of the companies. Mr. Wilkins urged the men to continue work, and said he could assure them that they would receive as good wages as is paid on any railroad. Mr. Wilkins' remarks were heartly cheer 1 At quitting time the shopmen held a meeting and r solved to adopt the prudent counsels of the superintendent, and unanimously decided not to strike. The trainmen, who were to have met Mr. Wilkins, by some misunderstanding were not largely represented at the meeting, subsequently resolved to

adopt the same course as the shopmen, and decided not to strike. THE ROADS SOUTH. Col. Peyton, of the Virginia Midland, states that emissaries of the trikers have visited the men on the Midland and other roads in Virginia, but they have received nothing beyond words of sympathy. Seeing that striking north has brought on blocd. shed, and they having seen plenty of bloc 1. thed during the war, they prefer to keep en-tirely out of anything which may end in warfare. This may be said to be the general

sentiment of the men on the Virginia roads. THE WASHINGTON AND OHIO ROAD. There was a rumor yesterday that the hands on the Washington and Ohio road had struck and had stopped trains at Round Hill, but it being pretty well known that Round Hill is the present terminus of the road, it was apparent that the report had been started as a joke.

Business Suspended and Citizens

Organizing
LOUISVILLE KY., July 25, 11 a.m.—The excitement here is great this morning. Business seems su pended, and citizens are organizing. Laborers are gathering to the number of several thousand. At 1 o'clock his morning an attempt was made to burn the Louisville, Nashville and Great South-ein railroad office, but it failed. THE NEW JERSEY STRIKERS.

The silk Weavers and Railroad Men Both Making Trouble.

PATERSON, N. J., July 25, noon.-Mayor Buckly has been notified by several mill owners that their property has been threatened by striking silk weavers, and that they will hold the city responsible for any damages they may affer from a mcb. The city authorities propose to swear in a large num-ber of special policemen, and to call upon the grand army of the republic in case of an outbreak. There are no malitia here. The sheriff summored all the constables to meet this neon, and will swear in a number of special deputies to protect property and suppress disorder. There are no signs of a strik on the Erie railroad here. The Delaware Lackawanna and Western road is blockaded at Kingsland. No trains have come from New York, and but one or two from the west. An attack on the water tank at West Paterson is anticipated. The striking silk weavers are becoming demonstrative. A non-striker was badly hurt this morning by one man and two women.

NO TROUBLE IN NEBRASKA. Cause Why-The Pay Wasn't Cat Down.

OMAHA, NEB , July 25, 11 a. m .- It is generally believed that all danger of a strike or further trouble on the Union Pacific or the other roads in this state has passed. The employes of all the roads are quietly at work and no disorderly demonstrations have! en made. The action of General Superintendent Clark, in rescinding the order for a reduction of wages, and the orderly, quiet and sensible action of the employes, is universally commended.

RESULT OF THE STRIKES. The New York Coal Sales Postponed New York, July 25 - President Sloan, of the Delaware, Lackawanna and Western re 1, has issued the following: "Owing to the uncettled ondition of transportation the sale of 110 000 tors a ivertised for this day is President Hoyt, of the Pennsylvania Coa company, notices the public that the coasale r lverti.ed to-day will not take place for same reason as given by President Sloan.

They say they will not resume work until they r ceive back pay due them or some at sactory as surance given them in regard to the payments for the past and atture.

Officials' Views of the Strikes. THE WORST BELIEVED TO BE OVER.

The opinion is now quite decided among officers of the general government that the worst features of the labor strike are over. and that, though the corporations whose employes have left their posts may suffer for an indefinite peric 1, that no more onslaughts by the mob may be expected. The precau-tions already taken by the President are deemed ample to preserve the peace. When the unruly element which uninvited has allied itself with the strikers, becomes convinced of this as they are rapidly becoming convinced, the mob features of the existing troubles will be at end. Secretary The upson who believes that the general government should take every step to preserve the peace property and lives of its citizens, is decidedy of the opinion that no feature of the complications which thus far have presented themselves can be interpreted as an organized war between labor and capital. IF WORSE STILL COMES.

For the present the government will take no further steps. Every threatened point is well guarded, and the peril deemed to have been passed. If, however, the strife should again brea's out in scenes of violence, the President will present to the Cabinet the necessity of enrolling the militia of the states wherein violence exists, with the service of the Unit d States to be under the direction of the Secretary of War. Special Cabinet Meeting. GEN. HANCOCK THINKS THE WORST IS OVER.

A special meeting of the Cabinet was held to day at noon and lasted until after two o'clock. It was called for the purpose of keeping the administration officially advised of the strikers' operations in "he different parts of the country, so that the President ould take some imm liate action if demed necessary. A number of dispatches were rerd and thoroughly discussed by the Cabinet. One from General Han ock reported everything in Philadelphia quiet and under control. He said that in his opinion it was not the lull before the storm, but the breaking up. The dispatches generally report at fairs more quiet and peaceable, and it was decid I that no fur her action should be taken by the government for the present.

The feeling at the produce exchange was more intense yesterday, and at one time a petition was circulated requesting the managers to hold a meeting to-day to give exding y s ssion, so as to get the expression of pression to the opinions of the exchange, but ION AT ALBANY

At 2 o'clock yesterday afternoon the Al-

bany strikers met in Capitol Park, where

while other speakers counselled for bearance. A committee was finally appointed to pro-ceed to the reight houses of the Central depot, on Water street, and take possession of When they arrived there the men at work were told that they must desist, and some refusing they were taken by the shoulders and put out into the streets. On their way down State street the Citizens' corps, of Troy, was met with hisses and derision, but no assault was made on them. This corps went directly to the 10th regiment armory. Leaving the freight houses, the strikers nexvisited in regular order the round house and elevator, and forced the men to desist from work. At the latter place grain was being transferred from the cars to the boats. From thence the men surged across the old railroad bridge spanning the Hudson river at the fcot of Lumber street, and when once on the Greenbush side an attempt was made to tear up the track there. This bridge is one used for freight trains exclusively, and the designs on the tracks were intended to stor reight traffic. The tracks were finally spike ! on the Greenbush side, thus stopping all movements of reight from west to east and south. All freight cars at West Albany were moved west after the rioters left there vesterday alternoon. It is said that the Albany Burgess Corps, an independent company, has been order: 1 out. The 9th brigade, Gen. Dickerman, is also reported ready to proceed o Rochester at a moment's notice. The strikers at Wesi Albany have sent in word that they will not allow troops to pass over the road. The strikers were scattered along the road on either side of the track, the women and children carrying them their noon meals and all sitting down enjoying it while others were racing with hand cars and singing songs. A BLOCKADE OF SIX THOUSAND CARS AT SYRACUSE. The freight conductors, firemen and brakemen at East Syracuse struck yes' orday after-noon. They sent a dispatch to Wm. H. Van-derbilt, Saratoga, N. Y., stating: "We, the employes in general, have quit work till our pay is restored as it was prior to July 1, 1817." The machinists in East Syracuse, numbering one hundred, also struck. Six thousand freight cars seventy engines and forty trains of freight are embargoed at East Syracuse. The strikers have detailed a force of their own men to guard and protect the property of the company. The strikers will not interfere with passenger or mail trains. They warn all outsiders, tramps or communists to keep away from them, stating that they can manage their own business. The men, who claim that by arrogance, unkindness and penurithat by arrogance, unkindness and penuriousness of management they have virtually been forced into the strike, gathered in force yesterday morning, visited other men in the city and induced all, with the exception of the employes of the Northwestern Road, to strike. The mob continued its labors during the afternoon, busying itself with the cioning up-of manufactories and all shops which lay in their way. The proprietors generally offered no objections, it being pretty generally understood that the men would return and go to work whenever deemed advisable. The mob, which at times numbered 2,000 but which was often divided into sections, was composed largely of boys between 14 and 20, but acting under directions from older heads. All railroad shops, including the Northwestern, have been closed, and the strikers are engaged now in stopping freight trains. As yet no passenger, mail or express trains have been interfered with. Among the establishments closed up are the workshops of the Michigan Central, Illinois Central, Chicago
